

BUILDING SMART SOLUTIONS

Business Development, Project Management and Sourcing in South America.

WHERE CAN WE HELP? >

LOCAL MANAGEMENT UNDER INTERNATIONAL STANDARDS

Why South America?

1. Despite having a changing economy, the South American Region offers a long list of opportunities for business development.
2. Where can we find the biggest opportunities?
 - Oil & Gas (Conventional and Non-Conventional)
 - Petrochemicals (gas monetization)
 - Mining (hard rock mining and lithium brine)
 - Energy Transition
 - Agribusiness
 - Fintech
 - Foods and beverages (commodities)

3. The region has an important environment of local Companies and Businessmen willing to establish win win associations with international Groups for the development of local projects.

4. BBS has proven experience in market research, project development, commercial representation and strategic associations with local groups for the joint development of profitable initiatives, under international standards and controlled risk exposure.

BSS Consulting

International extensive business development, sourcing and project management experience under the same roof...

We are a family company that came together in 2016.

With a total of more than 50 years of accumulated individual local and international experience between the members, and being the main areas of expertise business development and project management, Juan Carlos, Juan Manuel and Pablo created a family business with an added value proposition based on the following pillars:

- Relevant knowledge and experience in the local and regional markets.
- Experience for execution of local and regional projects complying with international standards.
- Wide network of contacts with professionals and companies, both users and suppliers.
- Complementary member profiles to meet client expectations and project requirements.
- Comprehensive end-to-end service, in terms of market survey, sourcing, sales, project tracking and steering, and customer service.
- Multicultural open mindset.
- Drive for results & excellence.

After five exiting years working under the format of BSS Consulting, we are pleased to say our original expectations for engagement with clients and projects have been exceeded.

Given the proven opportunities in Argentina for the coming years, we expect to increase our work providing adding value solutions for foreign companies.

Where can we help?

Market research

Survey of markets and industries. Definition of added value proposals and business opportunities. Feasibility & project evaluation.

Business Development

Commercial engagement with users and other stakeholders. Cooperation with technical departments for the definition of specs to suit customer needs.

Strategic associations

Engagement with local and foreign stakeholders for development of agreements, business partnerships and joint ventures (users, OEMs, on ground service suppliers, others).

Project Management

Engineering, cost estimating, project management and contract management.

Sourcing / Supply Chain Management

Provide local and international support in identification, evaluation and contact with potential suppliers, service companies, facilities and other requirements.

Sales / representation

Commercial engagement with potential clients, suppliers, organizations and authorities.
